**The Royal Ice Pail by Rundell, Bridge and Rundell. By far the greatest silver service ever created was the Grand Service made by royal silversmiths Rundell, Bridge and Rundell for King George IV of England. It took approximately ten years to complete and cost approximately \$15 million in today's currency. This historically significant and magnificently crafted ice pail hails from that same Grand Service. It is the only known royal ice pail to come on the market in more than 75 years, since the great majority of the service still resides in Windsor Castle and is used by the Queen to this day.
